EVERYTHING YOU NEED TO KNOW BEFORE STEPPING INFRONT OF THE  
LENZ

## WHY YELLOW LENZ

thats a good question. Yellow Lenz photoshoots are unlike any other photographic experience you have been on or seen. A photo session starts with us getting to know each other. I want you to feel like I am your friend not some bossy, scary lady with a big yellow camera. You should feel comfortable and relaxed in front of my Lenz. I will help you with your posing and with in no time you will be a pro. The portrait sessions that I do are more lifestyle based, so it is all very natural. I am very excited to hear your ideas about locations and themes! Lets make plans to chat soon!

Hi there! my name is Jessica. I am your  
photographer.

My style and how I shoot is very light and airy. I take  
a more relaxed and laid back approach to any  
session.

We will start by setting up a little meeting about a  
week before the shoot. This meeting can be in person  
or over FaceTime. We will chat about the theme of  
the shoot and what you should wear. This is a very  
calming step as you get to meet me and talk through  
how your shoot will go. I want your portrait session to  
be fun, not stressful!

On the day of the shoot we will meet at the location.  
In the beginning of the shoot we will keep it simple,  
this helps because I can teach you some subtle poses  
and you can loosen up. From there is where the  
magic happens.

lets book a meeting and get chatting!

cheers for now!

I had the most amazing experience and time shooting with Jessica. It was my first time having a photoshoot and I can easily say that I've never felt more confident and comfortable in front of a camera before. It was extremely fun and entertaining through out!
